Re: Clinical Practice Guidelines

Receive a warm greeting on behalf of First Medical Health Plan, Inc. (FMHP)

Committed in offering quality services to our providers and subscribers, we would like to inform you that we have updated the Clinical Practice Guidelines (CPG's). For your knowledge, annually, the Clinical Practice Review Committee approves and adopts CPG's for prevention, diagnostic and management of physical and mental health.

These Nationally and Internationally recognized Guidelines level correspond to standards of care and clinical treatments for specific conditions. We encourage you to use these Guidelines, in order to collaborate with the quality and consistency of health care management.

Special Section on COVID-19

COVID-19 is a dynamic and changing disease for which there is new information that changes continuously. There are protocols, guidelines, clinical guidance, and clinical trials to manage this condition, but because it is so recent, there are no evidence-based Clinical Guidelines. However, FMHP has decided to include a section on recognized links with information about COVID-19. This link will take you to globally and nationally recognized sources such as the World Health Organization and U.S. Centers for Disease Control and Prevention. Once we have evidence-based Clinical Guidelines we will share them. The links are:

Centers for the Disease Control and Prevention (CDC)

- <https://www.cdc.gov/coronavirus/2019-ncov/hcp/training.html>

World Health Organization (WHO)

- <https://www.who.int/emergencies/diseases/novel-coronavirus-2019/technical-guidance>
- <https://www.who.int/emergencies/diseases/novel-coronavirus-2019/global-research-on-novel-coronavirus-2019-ncov>

Below you will find the links to access and review the Clinical Practice Guidelines.

Adult, Children and Adolescent Preventive Health

The Guidelines for Clinical Preventive Services from the U.S. Preventive Services Task Force (USPSTF) includes recommendations on screening, counseling, and preventive treatments with clinical considerations for each topic. Below, you will find the link.

- <http://www.ahrq.gov/sites/default/files/wysiwyg/professionals/clinicians-providers/guidelines-recommendations/guide/cpsguide.pdf>

The USPSTF also offers updated Guidelines in the link below. Here you will find the recently published Guidelines, which include near to one hundred (100) topics on prevention, interventions, and counseling.
